To whom it may concern:

I am pleased to recommend Jon Bloom and Bloom Builders concerning our work together on Design-Build projects.

The interaction between Bloom Builders and Devenney Group on the recently completed Design-Build project for Arizona Associates for Reproductive Health has been a very positive experience. Our firm considers the partnership in this endeavor a success. The Client's precise and highly technical requirements as well as their tight schedule and budget were all met. The construction work was done in a very professional and friendly manner. Bloom Builders' team lead on the project, guided us through some construction issues and continuous changes required for a new medical practice.

Bloom Builder's dedication to quality and the attention they give their client are a big part of the success of each project. Jon Bloom's professionalism on our mutual projects has always been appreciated. We have been able to consistently rely on the quality and competence of the work involved in the Design-Build projects we undertook as a team at Paradise Valley Hospital.

Devenney Group is looking forward to another mutual project in our future.

Regards,  
**DEVENNEY GROUP LTD.**
